Please consider a ***Design/Build***
contract with
Fuqua Construction, Inc.
for your next project.

Our business is working with people to assist in developing their ideas, planning and building their projects. We work together as a Team: **Owner / Builder / Design Professional** to build the facility that brings these efforts together in an expertly constructed project.

Trust Builds.

We would enjoy putting this team together for you.

*We understand
nursing home
construction.*

Fuqua Construction, Inc. is a Christian company that has been building in the nursing home community for many years. As we plan together, we listen to know your home's mission and provide a facility that will help you accomplish that mission.

We recognize the importance of providing you with a good experience during construction as well as a quality finished project. Our employees are knowledgeable and respectful of the work we do.

We offer our experience from past projects in a trusted relationship that assures your home a purposeful, quality building with a fair price.

Culture Changes

We are aware of the current culture changes that are occurring in nursing homes today. There are many terms that are being coined such as: "Greenhouse", "Person-directed", "Home-like" and others. They all mean the same thing. It is a move away from an institutional feel in both program and facility design.

It is about refining a respectful and kind way to serve older adults that makes their lives and the lives of their caregivers more meaningful. It is a common-sense approach to bringing an atmosphere of "home" into care giving at the nursing home and enriching the lives of those that live and work there.
